1. This application is in condition for allowance except for the following formal matters:

The abstract of the disclosure is objected to because it is insufficiently detailed with respect to the particular pharmaceutical uses of the tripeptide. Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: Page 28, line 30, of the specification refers to “a nucleic sequence that encodes peptides of sequence ID No.1”. However, the specification does not recite any sequences identified by sequence ID No., and it is not clear to what sequences or peptides these sequence ID Nos. are referring. It should also be noted that the US patent identified at the end of the quoted sentence, U.S. Patent No. 6,207,456, does not list any nucleic sequences in its sequence listing. Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm’r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The examiner attempted to call Applicants’ attorney in order to discuss a possible examiner’s amendment correcting the above informalities. However, the examiner was unable to contact her using the given telephone number.
3. Claims 8, 14, 16, 17, and 31-33 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey E. Russel at telephone number (571) 272-0969. The examiner can normally be reached on Monday-Thursday from 8:00 A.M. to 5:30 P.M. The examiner can also be reached on alternate Fridays.

The fax number for formal communications to be entered into the record is (571) 273-8300; for informal communications such as proposed amendments, the fax number (571) 273-0969 can be used. The telephone number for the Technology Center 1600 receptionist is (571) 272-1600.
